### DETAILED ACTION

1. This action is responsive to the amendment, filed 2002-05-08.
2. The disposition of claims is: claims 1-13 are pending as filed. Claims 1 and 6 are independent.
3. The group art unit of the Examiner handling your case has changed. The new art unit is **3624**. Please use current art unit on all correspondence to help us route your case in a timely fashion.

### *Claim Rejections - 35 USC § 102*

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Art Unit: 3624

5. Claims 1-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Kramer et al. (US 6,324,525).

Kramer et al. teaches a system for processing funds transfer from a customer of financial institution, the system comprising:

➤ a first processor (140) receiving a bulk file from the customer, the bulk file containing a plurality of funds transfer transactions (2790; col.133, lines 18-43) claims 17-22), the first processor grouping the plurality of funds transfer transactions into funds transfer transactions requiring a foreign exchange operation, denoted as foreign exchange funds transfer transactions and funds transfer transactions not requiring a foreign exchange operation, denoted as same currency funds transfer transactions (see figs. 20A-20H, figs.21A-21B, and fig.25-26; abstract “aggregated electronic transactions”);

➤ a second processor coupled to the first processor, the second processor receiving the same currency funds transfer transactions not requiring a foreign exchange operation from the first processor, the second processor generating first funds transfer instructions in response to the same currency funds transaction (130);

➤ a funds transfer processor coupled to the second processor, the funds transfer processor receiving the first funds transfer instructions from the second processor and

Art Unit: 3624

executing the received first funds transfer instructions by transferring funds to a funds transfer processor of another financial institution (EFT); and

➤ a trading processor coupled to the first processor, the trading processor receiving the foreign exchange funds transfer transactions from the first processor, the trading processor executing a foreign exchange operation in response to the received foreign exchange funds transfer transactions (col.16, line 25-col.25, line 60).

***Response to Arguments***

6. Applicant's arguments with respect to claims 1-13 have been considered but are moot in view of the new ground(s) of rejection.
